Open Door Policy:

Kids Education & Recreation has an open-door visitation policy for your child's approved parents/guardians. We invite you to visit your child at any time throughout the day. You do not need to make prior arrangements, just stop in, and let the office know you would like to visit your child's classroom. We also invite you as a parent or guardian to participate in any activities we offer to your child at Kids Education & Recreation.

Arrivals and departures:

Upon arrival and departure, the parent/guardian must sign their child/ren in and out using our ProCare system located at the front desk. This system allows each parent/guardian or authorized person that will drop off or pick up a child to electronically sign the child/ren in and out using a personalized fingerprint access or code. This is a state licensing requirement as well as a Center requirement. In order to accurately monitor your child's well-being each child must be signed in and out using the ProCare system. Parents are responsible for the supervision of their child/ren during drop off and pick up. Please make sure you make direct contact with your child's supervising staff member each time you drop off or pick up your child/ren. We will not release your child to anyone unless they are over the age of 18 and are on the authorized pickup form. Children will only be released to the persons listed on your pickup form. Any changes to your child's pickup form must be submitted to the Center in writing. We cannot accept changes via the telephone. If it is the first time a person will pick your child/ren up or if we are not familiar with the person picking up your child/ren we will require a valid driver license for verification. This is for the safety of your child and our staff members.

Dependent upon the age we will limit the amount of time outside when the temperature drops below 25 degrees or rises above 90 degrees. We may also adjust our schedule if a situation arises due to rain, wind, or ozone warnings. We

Medications:

Medication Policy and guidelines per the Ohio Department of Jobs and Family Services

Kids Education & Recreation encourages parents and physicians to schedule the administration of medication outside of their child's Center hours.

In order to meet the needs of children for whom it is necessary to administer medication during the day, Kids Education & Recreation will adhere to the following medication policy and to all laws regulating this activity. Medication will be stored, handled, and administered only according to this policy:

1. ODHS form 1217 Section 1: Physician's instructions, must be completed by your child's physician for any over the counter medication.
2. If medication is a prescription from a pharmacy with a pharmacy label, parents can complete information required by ODHS form 1217.
3. Prescription medications are only administered when: (1) they are in the current prescription container (2) labeled by the pharmacist with the child's name, physician's name and phone number, name of the medication, and dosage instructions.
4. The staff member who administers medication will record each dose administered on the master form. The record will indicate the name of the child, medication, dose, date, time, and who administered it.
5. The application of sunscreen and diapering cream will also require the completion of ODHS form 1217.
6. All medications must be handed to the administrator and/or designee. No medication can be mixed in a child's bottle or food. The Center is not responsible for spilled medication.

The initial dose of the medication must be given to your child at home or by the doctor. We want to assure your child accepts the medication and does not have a reaction to the medication while in our care.

We cannot restrain a child or use unusual force to administer medication. Parents will be called and informed if a problem occurs as we do not want your child to miss their medication.

Children on antibiotics may not return to the Center until they have completed 24 hours of antibiotic treatment and have been fever free for 24 hours, without medication.

ODHS form 1217 is available in your enrollment packet, online, or at the front desk. This form must accompany any medication left with your child.

Medical emergencies:

In the case of a minor accident/injury staff may administer first aid. If first aid is administered an incident report will be completed and given to the parent that day during pickup. The following would require an incident report:

Illness which requires first aid treatment.

Accident/injury which requires first aid treatment.

Bump or blow to the head.

Emergency transportation.

If a child requires emergency transportation the report shall be available to the parent within 24 hours after the incident occurs.

In case of a serious injury or other medical emergency we will immediately call 911. We will then make every effort to contact you. If we are not successful in reaching you, we will go to the next person listed on your emergency contact form. Please make sure that all your contact information is correct and updated as needed. If the EMS is contacted a staff member will accompany the child to the hospital with all available health records. At no time will a staff member transport a child in their vehicle. We will always have a staff member present that has received training in First Aid/CPR and Communicable Disease certification.

Clothing and personal belongings:

Please make sure your child always has a change of clothing in their cubbies. Children are extremely active at the Center and may require a change of clothing. We have plenty of educational toys and activities to keep your child busy throughout the day. Please have your children leave their personal belongings in the car or at home. We cannot be responsible for any lost, stolen, or broken items that are brought into Kids Education & Recreation.

Discipline and guidance practices:

Discipline consists of positive reinforcement. The use of physical punishment is prohibited. The administrator will contact the parent in the event a child's behavior becomes a threat to himself or other classmates. If a child poses a continued threat to themselves or other classmates a log will be captured for further dialog with the parents. It is our goal that a solution can be reached between the Center and the parent. If a successful outcome is not possible the child will be removed from the Center for the safety of all.

The first step in guiding young children's behavior is to anticipate and eliminate opportunities for misbehavior. We use creative ways to manage and redirect children who are not following rules.

Biting policy:

Biting is a natural developmental stage that many children go through. It is usually a temporary condition. The safety of the children at the Center is our primary concern. After all preventative steps have been exhausted and the child continues to bite routinely, we will contact the parents. Chronic biting may require that the child be terminated from enrollment. Each biting situation is carefully evaluated by the administrator while considering all the relating factors. If biting takes place, we will:

Thoroughly clean the area with warm, soapy water, apply an ice pack, and notify the parent. If the bite breaks the skin a complete incident report will be filled out. This can be an emotional situation for the parents and children involved and the Center will keep incidents as confidential as possible. We will work with the child and families closely to get through this situation.

Court appearances:

Kids Education & Recreation staff will not appear in court unless it is mandated through the court directly or through the State of Ohio. If we are subpoenaed for a circumstance that does not pertain to us directly then we will charge \$200 per hour per staff member that attends court.

Custody Agreements:

If a custody issue arises, you must provide the Center with court papers indicating who is authorized to pick up the child/ren. We will not deny a parent access to their child/ren unless we have documentation stating otherwise.

Emergencies and Safety:

In case of a general emergency the staff will be instructed to shelter in the safest location for the children until parents can be notified. In case of a threat to safety the staff will lock down the building and call 911. In case of a natural disaster such

as a fire, tornado, flood, or hazmat situation the children may be relocated to a safe pre-determined location with the assistance of our public safety officers. Parents will be notified by the Center, local radio, TV stations, social media, call/text/email as to where their children can be safely picked up. Kids Education & Recreation will make every effort to maintain regular operating hours however, emergencies do arise in which failure to provide basic needs (water, heat, and electricity) may result in a closure or delay. Parents should tune in to social media, radio stations and TV stations for information concerning emergency pick up or closure. If circumstances should arise, please call the Center to hear the voice mail message. Medical, dental and general emergency plans are located/posted in each classroom next to the phone and in the office. In case of an emergency the staff member in charge shall do the following:

- 1.) Call 911 for an emergency squad (Granville emergency squad).
- 2.) Notify parents/guardian as soon as possible.
- 3.) Accompany the child/ren to the source of emergency treatment.
- 4.) Remain with the child/ren until parents/guardian arrives.
- 5.) Assure that the remaining children are supervised away from the injured child/ren.

If a child is injured requiring medical attention, it is imperative that the Center have parents/guardian permission to contact local EMT for transportation to the nearest medical facility. We are unable to accept children whose parents refuse to grant consent for transportation to a source of emergency treatment.

According to ODJFS rule 5101:2-12-16, a “Serious Incident, Injury or Illness” includes any situation occurring while a child is in care of the Center that requires emergency medical treatment or professional consultation or transportation for emergency treatment.

Fire and safety drills:

Fire drills are performed one time per month and severe weather drills are performed four times annually. This is to acquaint your child with Kids Education & Recreation evacuation procedures.
